

South Sudan Reporting for Article 7 of the Convention on Cluster Munitions

Reporting period: 1 January 2022 to 31 December 2022

Form A: National implementation measures:

- changed
- unchanged (last reporting: 2022)**

Form B: Stockpiles and destruction:

- changed
- unchanged (last reporting: 2022)
- non applicable**

Form C: Technical characteristics of each type produced/owned or possessed:

- changed
- unchanged (last reporting: 2022)
- non applicable**

Form D: Cluster munitions retained and transferred:

- changed
- unchanged (last reporting: 2022)
- non applicable**

Form E: Status of conversion programmes:

- changed
- unchanged (last reporting: 2022)**
- non applicable

Form F: Contaminated areas and clearance:

- changed**
- unchanged (last reporting: 2022)
- non applicable

Form G: Warning to the population and risk education:

- changed**
- unchanged (last reporting: 2022)
- non applicable

Form H: Victim assistance:

- changed**
- unchanged (last reporting: 2022)
- non applicable

Form I: National resources and international cooperation and Assistance:

- changed
- unchanged (last reporting: 2022)**
- non applicable

Form J: Other relevant matters:

- changed
 - unchanged (last reporting: 2022)
 - non applicable**

The information shown on this map does not imply official recognition or endorsement of any physical, political boundaries or featured names by the United Nations or other collaborative organizations. UNMAS and affiliated organizations are not liable for damage of any kind related to the use of this data. Users who notice errors or omissions are encouraged to inform the IM unit of UNMAS at unmass.as.imma@unops.org. The international boundary between the Republic of Sudan and the Republic of South Sudan has not yet been determined. The status of the Abyei area is not yet determined.

Form A National implementation measures

There is no legal measures on CCM sanction because the parliament is still working on the rectification process.

Form B Stockpiles and destruction of cluster munitions

Part I: Stockpiled cluster munitions

South Sudan does not have stockpiles of cluster ammunition.

Form B Stockpiles and destruction of cluster munitions *(continued)*

Part II: Status of programmes for the destruction of cluster munitions

In South Sudan PM1 is commonly found during Battle Areas Clearance, they are always destroyed in situ because most of them are airdrop they cannot be move.

Most of the BAC Operators create temporary or Central Disposal Site (TDS or CDS) away from the community it is about 5 km to 15 km from the community settlement and the access roads. Before demolition the community and the local authority are informed and given awareness about the danger of the area. However, there is need to do a study on the soil to see if there are side effects on those dangerous weapon on the soil in a long run.

1. Applicable safety and environmental standards observed in destruction

In South Sudan, since there is no cluster munition stockpile, South Sudan Mine Action Program is dealing with the Battle Area Clearance operations of unknown and known identified cluster munition tasks site, which were as a result aircraft containers dropped by Sudanese Armed forces warplane during the longer civil war between Sudanese Armed Forces and Sudanese People Liberation Army/ Movement.

In accordance with South Sudan NTSG, cluster munitions are always destroyed in situ, that means they are destroyed exactly in the same place where they are found. During which safety distances of personnel involved in the operations and the affected community are observed by establishing the codon around the danger area, awareness given to the community and finally the remediation of the area. During the battle areas clearance operations, we recommended the use of personnel protective Equipment (PPE), the provision of staff insurance coverage by all implementing agencies. Each mine action partner establishes

its own SOP and policies based on NTSG/IMAS to safeguard the environment and clearly entails the safeties during the clearance of cluster munitions.

When Battle Area Clearance (BAC) operations of cluster munition ceased, the area used shall be refurbish in accordance with the requirements of the local communities and if necessary the land formally handed over as a minimum, the refurbishment shall include the recovering of the large items of scraps, the filling in of any pits and craters made by disposals, the fencing of any marking of any areas where there may be residual non-explosives hazardous materials left in the ground.

6.Challenges and international assistance and cooperation needed for the implementation of article 3

Not Applicable

Form C Cluster munitions retained or transferred

Not Applicable South Sudan does not have cluster ammunition retained or transferred in its territory.

Form D Technical characteristics of each type produced/owned or possessed

Not Applicable South Sudan does not produce cluster ammunition.

Form E Status and progress of programmes for conversion or decommissioning of production facilities

Not Applicable South Sudan has no production facility for cluster ammunition.

Form F Contaminated areas and clearance

Size and location of cluster munition contaminated area*

There are 5,278,509 square meters of land contaminated by cluster munition in South Sudan. The most contaminated states with cluster munition are central equatorial state, Eastern Equatoria state, Western Equatoria, Jonglei state, Upper Nile state, Warrap state and Western Bahr Ghazal as shown in the table below.

Table 1 showing the Size and location of cluster munition contaminated area* 1 January – 30 December 2022

S/N	Location**				Size of contaminated area (m ²)	Cluster munition remnants		Estimated or known date of contamination	Method used to estimate suspected area	Supplementary information

New CM Area discovered in 2022.

South Sudan will continue to report new contamination of Cluster Munition that is being discovered during survey and ongoing clearance in its Jurisdiction. The new contamination is increasing on the total areas contaminated compared to 2021.

There are 587,815 square meter of land containing new cluster munition contamination. They are concentrated within Central Equatoria State, Eastern Equatoria State Jongle state and Upper Nile State as shown below in the table 2.

Land Release from Cluster Munition Contamination during 2022

During 2022 South Sudan was able to release 4,452,613 square meters of land contaminated by Cluster munition through non-technical survey. The land was released from Central equatorial state, Eastern Equatoria state, Western Equatoria state, Jonglei state, Upper Nile state, Unity state, Lakes state, Western Bahr Ghazal and Northern Bahr Ghazal as shown below the table 3.

Total				4,452,613		

During 2022 a number of Cluster Munitions contamination cleared where 28,391,041 square meter and 611,629 square meter are reduced through non-technical survey. There are 20,632 cluster Munition and 2,089 UXOs cleared. These achievements are contributed by various implementing NGOs implementing BAC task. These cluster Munition cleared are from the following state's; Central equatorial state, Eastern Equatoria state, Western Equatoria state, Jonglei state, Unity state, Lakes states, Upper Nile state, Warrap state, Western Bahr Ghazal and Northern Bahr Ghazal.

2. Table Showing the Status and progress of programmes for the clearance of cluster munitions remnants 1 January – 30 December 2022.

<i>Location**</i>				<i>Size of cleared area (m²)</i>	<i>Size of NTS Reduced area (m²)</i>	<i>Status of clearing programme (if possible, including plans, timetable and completion date)</i>	<i>Cluster munition remnant cleared</i>				<i>Clearance method</i>	<i>Standards applied</i>	
<i>State</i>	<i>County</i>	<i>Payam</i>	<i>Boma</i>				<i>Type</i>	<i>Quantity</i>	<i>Type</i>	<i>Quantity</i>		<i>Safety standards</i>	<i>Environmental standards</i>

2. Challenges and international assistance and cooperation needed for the implementation of article 4

There are no cluster Munition stockpile in South Sudan to allow South Sudan request for international Assistance.

Form G Measures to provide warning to the population and risk education

Article 7, paragraph 1

Measures taken to provide risk reduction education

Cluster munition contamination is threatening my lives today in South Sudan its causing a lot of accident because the local population are returning from the IDP, Refugees camp.

There has been Mine Risk Education in such places to promote safety behaviours of the local population before clearance by the different implementing partners. The risk education targets men, women, girls and boys of the local population internally displaced people (IDPs), refugees and scrap metal dealers. Cluster munition contamination continued to hinder the relocation, return, resettlement and other livelihood activities including grazing, hunting, access to water points, health services, schools and other development, humanitarians work.

2. Measures taken for effective warning of the population

The efforts to exclude civilians from danger of cluster munitions are; marking signs are in place and there is continuous awareness to increases knowledge about the risks of explosive ordnances to reduce accident among the local population. South Sudan experienced great floods in the previous years that has destroyed some making signs in some affected areas. There is need to conduct comprehensive survey to ensures new areas are marked with contaminated signs.

Table 4 Number of EORE beneficiaries by age and sex 1 January - 31 December 2022

Boys	Girls	Men	Women	Total
181,469	166,338	73,159	107,429	528,395

During 2022 a total beneficiary who receive Mine Risk Education was 528,395, 107,429 women, 166,338 girls, 181,469 boys and 73,159 men as shown in the above table 4.

Form H Victim assistance: status and progress of implementation of the obligations under article 5

Table shows the Number of individuals killed or injured by anti-personnel mines and other Explosive Remnants of War 1 January – 31 December 2022.

Accident Device type	Killed				Injured				Total
	Boy	Girl	Man	Total Killed	Boy	Girl	Man	Total Injured	
Anti-Personnel				0			1	1	1
Anti-Vehicle				0			5	5	5
Component				0	1			1	1
Grenade	1	1	2	4	9	2	2	13	17
Mortar	4		1	5	4			4	9
Other Device	2			2	3			3	5
SAA				0	1	1		2	2
Total	7	1	3	11	18	3	8	29	40

The table above shows disaggregate data on accident caused by the different hazard types in 2022. The accident caused by AP mine was 1, 5 by AT mine,17 Grenade ,9 Mortar,5 other devices and 2 SAA.

However, there is no data on indirect victims of cluster munition. The data show majority who were killed and injured by the different devices are boys followed by men.

**1. National focal point/coordination mechanism for the implementation of article 5
(specify name and contact information of government body responsible)**

The National Ministry of Gender ,child and Social welfare is mandated by the government of South Sudan to oversee the coordination of victim Assistant

2. Data collection and assessment of the needs of cluster munitions victims (please indicate gender and age of survivors as well as information on affected families and communities)

Not needs assessment conducted in South Sudan.

3. Development and implementation of national laws and policies for implementation of article 5

South Sudan is still working on the rectification of the Convention of Cluster Munition. After the rectification a by law will be passed.

4. National plan and budget, including timeframes to carry out these activities

Draft National Disability Plan of Action developed in 2020 with the Ministry of Gender child and Social Welfare.

Note: If necessary, plans/budgets may be provided separately.

5. Efforts to closely consult with and actively involve cluster munition victims and their representative organisations in victim assistance planning and implementation.

Cluster munition victims are considered under the different organization of persons with disability. They are registered under different union of physical disability, Visual Impaired, War disabled, Hearing and speech impairment according to South Sudan Disability policy and the draft national disability plan of action.

6. Assistance services (including medical care, physical rehabilitation, psychological support, and social and economic inclusion)

The National Ministry of Health in South Sudan developed the National Health Policy (NHP) 2016-2026, to strengthened national health system and partnerships that overcome barriers to effective delivery of the Basic Package of Health and Nutrition Services (BPHNS); and that efficiently responds to quality and safety concerns of communities while protecting the people from impoverishment and social risk. Public health services are delivered along a four-tier system, starting from the primary level to tertiary level. But most health infrastructures are dilapidated or destroyed; essential medical and surgical equipment outdated or lacking in most health facilities. The MOH is also challenged with the management and human resource capacity where most medical personnel prefer INGOs and UN.

For medical emergencies ICRC Mobile Surgical Teams continuous to performed emergency surgeries & evacuation of the wounded by providing emergency medical and surgical attention. In Juba ICRC support the Military Hospital running an operating theatre and providing training, surgical materials and medicines and also supported the opening of a blood bank that is supported by INGOs.

Presently INGOs are responsible for 80% of health service delivery in the country. HI continued providing mental health services and psychological support within the government hospitals.

South Sudan has reported on the effort to increase comprehensive rehabilitation to mine/ERW victims (PWDs) that is done through ICRC and HI, however there some organization offering rehabilitation to children born with disability. ICRC support MGCSW three rehabilitation centres, HI continue to offer rehabilitation service within the government health facilities.

ICRC rehabilitation services benefited Men 1418, Female 472, Unknown 1273 total of 3163 Person with Disability. Out of the total who received services 420 are weapon wounded 93 are mine/ ERW victims.

ICRC mobile team extended physical rehabilitation services to 16 PWDs at the remote and hard to reach areas to provide services to the following locations Manikin, Yam bio, Maridi, Aweil, Raja, Akobo, Leer, Yirol in 2022.

ICRC distributed a total of 725 orthopaedic devices to the PWDs including prosthesis & orthosis 339 wheelchair and postural support to the PWDs.

HI continued providing rehabilitation services to 10 men and 1 female totally to 11. HI extended their efforts to reach remote areas such as Pibor (Gurumukhi, Leguangole), Panyijar to provide services to persons with disability.

During the year 2022 Hi procured 10 devices and distributed it to person with disability including landmine and Explosive Remnant of War.

There has been increase in accessibility of psychological and psychosocial services to persons with disability by the INGOs, OPDs, State Ministry of Gender, Child and Social Welfare and the Union of persons with disability.

A total 428 received psychological support from ICR and 11 from HI and 500 from the OPDs and the Union of person with disability.

The Union of person with disability jointly with OPDs conducted a pilot assessment on psycho-social impairments to understand the situation in Juba city where they discovered a lot of cases within the community, they offered psychosocial support to the care givers and referred them for treatment at OVCI, Juba Teaching Hospital and Military Hospital. They are recommended them to establish the psycho- social impairments organisation.

There are efforts for social economic inclusion of person with disability that have access to education, employment, social protection programs and business skills by many INGOs, OPDs and Union of person with disability.

ICRC has trained 188 people with disability on business skills and economic empowerment to re-establish their livelihood.

The efforts to promote social inclusion through sports for people with disabilities are in place.

ICRC launched Amputee football tournament during the International Day of Persons with Disabilities 42 people with physical disabilities were trained who will take part in amputee football.

ICRC supported 169 wheelchair basketball and amputee football players with physical training focusing on social integration.

The South Sudan National Wheelchair Basketball team participated in the 1st African Mix Wheelchair Basketball International Tournament organized by the International Committee of the Red Cross (ICRC) in collaboration with the Congolese National Paralympic Committee in Kinshasa and Niger from the 5th to the 10th of December 2022. South Sudanese persons with disability where involved 4 women and 8 men totally to 12 members of the team

The ICRC has trained 152 wheelchair basketball players in South Sudan since 2012.

Through the union 1000 PWDs are supported with unconditional grant where 8 OPDs where empowered to start micro-business of various types. Hence generating revenue to the 8 OPDs for their office sustainability.

The OPDs continued to advocating for access to inclusive policies, Laws, education, health and livelihood etc.

There is continuous awareness to girls and women with disability need to access services search as education, health and mobility devices.

A number of PWDs were trained on gender based violence and identify cases of GBV among persons with disability.

Many schools received supplies of teaching aids to schools.

There is continuous advocacy for inclusive accessibility to office, schools, public transport and hospital by PWDs.

Light for the world

They are promoting inclusive education with the National Ministry of General Education.

Supported the development of sign language dictionary for Deaf and Mute impairment.

Empowerment of PWDs in business skills.

Norwegian Church Aid

Building ramps for inclusive accessibility to offices, schools, toilet and hospitals by all Person with Disability.

There is effective participation of OPDs and the South Sudan Union of Person with disability in planning issues concerning their welfare.

The OPDs are raising awareness and mobilising all PWDs within the states to form their branches and enhance service delivery to various OPDs within the states.

For the first time in South Sudan the Union of person with disability has organised for the a general assemble where representatives of PWDs from 10 state and 3 administrative areas were brought to juba to discuss on the constitution and was passed. One of the resolution of the general assembly was to establish state union of PWDs within the South Sudan 10 states and 3 Administrative areas.

The union of PWDs had developed their strategic 2022-2026 and lunched it with its partners.

After the Union did mobilisation of PWDs within the states and the form 4 state union of PWDs remaining 6 states and 3 administrative areas.

Efforts are in place for the OPDs and state union of person with disability to coordinate with INGOs and state ministry of social welfare at the rural areas and ensure they know their rights and have access to services within the remote areas.

Challenges

- Most activities are still concentrated within Juba
- Shortages of resources to reach out to persons with disabilities and mine survivors with the various services.
- Public awareness on disabilities and on the rights of persons with disabilities still inadequate to rural areas.
- Majority of persons with disabilities including survivors live in hard to reach places according to the map showing landmine/ERW accident locations.
- Limited campaign to strengthen an integrated approach by applying multi-sectoral efforts.
- MGCSW lacks Comprehensive needs assessment/Survey data on disability.
- Continuous insecurity, conflicts and natural disaster that continued to expatriate persons with disability from their community in South Sudan.

7.Steps taken to mobilize national and international resources

No resource mobilization steps taken at the national and international but many partners use the disability plan of Action and National Disability and inclusive Policy to seek individual funding.

8. Needs for international assistance and cooperation

Activity	Description	Time period	Need
1. Assistance to victims of cluster munition	1.Finance, material and technical support.		Funding
2. Capacity building for national authority and police	2.Training in EOD for residual contamination clearance.		Funding
3. Resource mobilizations	3. Finance, material and Technical capacity for the management of cluster munition clearance.		funding

9. Efforts undertaken to raise awareness of the rights of cluster munition victims and persons with other disabilities

Very limited efforts to raise awareness is ongoing by the union of person with disability and OPDs through support by some INGOs

Form I National resources and international cooperation and assistance

Article 7, paragraph 1

National resources allocated

South Sudan government through the Ministry of Gender, Child and Social welfare has budget allocated under social welfare annually but the fund has never been released to the Ministry.

1. International cooperation and assistance provided.

As a government entity fund allocated by donors to INGOs are not known always.

3. International cooperation and assistance needed

South Sudan does not have stockpile of cluster munition in its territory.

(b) For the implementation of article 4: Clearance and risk education

Activity	Description	Time period	Need
Clearance of cluster munition	Finance and technical support		Funding
2. Risk reduction	<ul style="list-style-type: none"> • Finance and technical support • Training in EOD for residual contamination clearance. 		Funding
3. Capacity building for national authority and police	<ul style="list-style-type: none"> • Finance, material and Technical capacity for the management of cluster munition clearance. 		funding
4. Resource mobilization			Funding

(c) For the implementation of article 5: Victim assistance

Activity	Description	Time period	Need
-----------------	--------------------	--------------------	-------------

Conduct needs assessment, raise awareness and provide assistance to victims of cluster munition	Finance, material and technical support.		Funding
---	--	--	---------

4. Assistance provided by State Parties to another State for cluster munitions used/abandoned prior to entry into force, as outlined in article 4 paragraph 4

State Parties that have used our abandoned cluster munitions which have become cluster munition remnants located in areas under jurisdiction or under control of another State Party are **STRONGLY ENCOURAGED** to provide assistance to the latter State Party to facilitate the marking, clearance and destruction of such cluster munition remnants.

Sudan does not give funding to South Sudan to support clearance of cluster munition they have used to contaminate South Sudan.
